

# A Night in the Jungle

[www.squidoo.com/jungle-coloring-pages](http://www.squidoo.com/jungle-coloring-pages)

## Teaching Notes:

### 1. The picture:

Ask children to look carefully at the picture of the jungle.

Can you see any creatures or animals in the picture?

If there were any big animals in the jungle (*e.g. tigers – where would they be? Among the trees on the other side of the river? Swimming in the river?*)

How much of them would you see? (*Just the eyes and ears? Just patches between the trees?*)

What about if a spaceship landed in the jungle? (*What would be in the ship? What would it look like?*)

Ask the children to

- draw in something extra
- colour in the picture

### 2. The story:

Ask the children to think of a story in 3 parts – beginning, middle and end.

*Beginning:* - they find themselves in the jungle (how? why? when?)

*Middle:* - they hear/see something scary (what do they see? why is it scary?)

*End:* - everything is OK because they get rescued / the scary thing turns out not to be scary

### 3. The plan:

Guide children into making some kind of plan – not necessarily with words.
